

You've Got a Lot to Learnw/m ©Bob Gregory
Lazy Cloud Music, BMI

Sweet kisses on a Monday, Tuesday's got the blues
somebody new on Wednesday, Thursday's got to choose
but Friday brings another new love
so you leave old flames to burn (and burn)
well, if you think that's what love is, darlin'
you've got a lot to learn

You say I'm in your heart, you say I'm on your mind
but now I'm on my own, you've gone and left me behind
you think it's just a game
and it will always be your turn (your turn)
well, if you think that's what love is, darlin'
you've got a lot to learn

Love is steady, love is ready
to forgive and forget
you think you understand it
but it's a thing you just don't get

You act just like you're shopping
try them on and then
come back tomorrow try them all again
and if you take one home,
she's just an item you'll return (return)
well, if you think that's what love is, darlin'
you've got a lot to learn

Love is steady, love is ready
to forgive and forget
you think you understand it
but it's a thing you just don't get

Love's a funny kind of school
there's no book to memorize
you don't really learn a thing
till you look in your lover's eyes
but you make love with your eyes closed
you're afraid of what you'll learn (you'll learn)
well, if you think that's what love is, darlin'
you've got a lot to learn
